Commentary on Results for the Period

Corporate Review

On 26 July 2022, Connected IO ("CIO" or the "Company") received notification from the ASX who advised that Connected IO will not be granted a further extension of its suspension deadline, and will be placed into suspension pre-market open on 27 July 2022.

ASX had determined that CIO's operations are not adequate to warrant the continued quotation of its securities and therefore is in breach of Listing Rule 12.1. The suspension will continue until CIO is able to demonstrate compliance with Listing Rule 12.1 of the Listing Rules.

The Company has continued to evaluate potential acquisition opportunities, with several progressing through negotiations to formal due diligence.

The Memorandum of Understanding ("MOU") with the client, Yojee Limited, as announced on 14 April 2022, expired in December 2022.

Following the expiry of the MOU with Yojee Limited, the Group's Internet of Things (IOT) devices, IOT Cloud Management Platform and associated software development services has been classified as discontinued operations for the year ended 30 June 2023.

On 17 February 2023, Connected IO announced that it had received its first royalty payment of \$17,548 from Focus Minerals Ltd (ASX: FML) in respect to a historical royalty granted to the Company in 1995 over a mining tenement near Coolgardie, Western Australia.

While the Company remains focused on actively pursuing acquisition opportunities, it welcomes the opportunity to benefit from future cash royalty payments should further mining activities be conducted on any of the tenements triggering the entitlement or to consider the potential sale of the royalty.

Subsequent to 30 June 2023, the Company further received approximately \$6,000 in royalties from Focus Minerals Ltd which has been brought to account at 30 June 2023.

There have been no changes to management or the Board during the year.

Operational Review

Connected IO ("CIO" or the "Company") revenues from ordinary activities increased from \$1,363 for FY2022 to \$59,070 for FY2023, representing a 4,234% increase which was primarily associated with the receipt of interest income on short term deposits of \$35,522 and total royalty payments of \$23,548 from Focus Minerals Ltd (ASX: FML).

The net loss for the Company for the year ended 30 June 2023 was \$455,733.

Loan receivable – Yakov Temov

During the year ended 30 June 2022, as part of the Company's disposal of CIO Technology, Inc. (CIO Tech) to its previous Managing Director, Mr Yakov Temov agreed to accept responsibility for the repayment of a \$400,000 loan owed by CIO Tech to the Company. The loan is interest free, secured against Mr Temov's shareholding in the Company along with a personal guarantee to the loan and repayable by 30 June 2022.

In January 2022, Mr Temov partially repaid \$94,027 of the loan via the sale of 2,293,333 ordinary shares held in the Company, with the balance of \$305,973 outstanding as at 30 June 2022.

Due to the uncertainty regarding the recoverability of the outstanding loan receivable, the Directors resolved to recognise a provision for doubtful debt for the entire outstanding balance as at 30 June 2022.

2. Trade and other receivables (continued)

During the year ended 30 June 2023, the Company engaged an external debt recovery agency to assist with the recovery of the outstanding loan receivable. As at the date of this report, the matter regarding the recovery of the loan remains on foot.

Expected credit losses

The Group applies the AASB 9 simplified model of recognising lifetime expected credit losses for all trade receivables as these items do not have a significant financing component.

In measuring the expected credit losses, the trade receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due.

The current expected loss rates are based on the payment profile for sales over the past 24 months before 30 June 2023 and 30 June 2022 respectively as well as the corresponding historical credit losses during that period. The historical rates are adjusted to reflect current and forwarding looking factors affecting the customer's ability to settle the amount outstanding. The expected credit loss at 30 June 2023 and 2022 was nil.
