### Review of results and operations

Revenues of the Group for the half-year to 31 December 2023 were \$905,832,000 (half-year to 31 December 2022: \$887,997,000), an increase of 2.0% on the previous corresponding period (pcp). This was a record revenue half for the Group against a challenging backdrop.

In a low revenue growth period, gross profit grew by 6.7%, or \$20,775,000, as savings in input costs were partially reinvested in promotional activities and gross margin % grew to 36.7% (pcp: 35.1%). Approximately fifty percent of this gross profit growth was absorbed in increased operating expenses, which grew by 5.7%, and the other fifty percent flowed through to EBIT which grew by 8.2% to \$131,011,000 (pcp: \$121,108,000).

NPAT grew 6.7% to \$83,970,000 (pcp: \$78,719,000) due to higher interest rates impacting borrowing costs during peak season.

The basic earnings per share for the Group was 58.6 cents per share (pcp: 55.8 cents per share).

As forecast, the Group's inventory holding reduced to \$379,953,000 at 31 December 2023 (\$465,244,000 in the pcp). This was delivered through measured purchase reductions, rather than discounting, with gross margins strengthening during the period. Led by inventory reduction, net debt has fallen to \$97,539,000 (pcp: \$212,176,000).

For further information please refer to the Results Announcement and the Investor Presentation for the half-year ended 31 December 2023.

### Principal activities

During the half-year, the principal activities of the consolidated entity were the innovation, development, marketing and distribution of small electrical appliances through two distinct business models as follows:

The 'Global Product' segment sells premium products designed and developed by the Group that are sold directly or through third parties, and may be branded Breville®, Sage®, Baratza®, LELIT® or other Group owned brands.

The 'Distribution' segment sells products that are designed and developed by a third party and are distributed pursuant to a license or distribution agreement or are sourced directly from manufacturers. Products in this business unit may be sold under a brand owned by the Group (e.g. Breville®, Kambrook®), or may be distributed under a third-party brand (e.g. Nespresso®).

## Directors' Report continued

# Notes to the Half-Year Report

For the half-year ended 31 December 2023

## Note 1. Basis of preparation of Half-Year Report

### (a) Corporate information

This financial report covers the consolidated entity comprising Breville Group Limited and its subsidiaries (Company or Group) for the half-year ended 31 December 2023. This financial report was authorised for issue in accordance with a resolution of the Directors on 13 February 2024. Breville Group Limited is a for profit Company limited by shares incorporated in Australia. Breville Group Limited shares are quoted on the Australian Securities Exchange.

The nature of the operations and principal activities of the Group are described in the Directors' Report.

### (b) Summary of significant accounting policies

The Half-Year Consolidated Financial Report does not include all notes of the type normally included within the Annual Financial Report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full Annual Financial Report.

The Half-Year Report should be read in conjunction with the Annual Financial Report of Breville Group Limited for the year ended 30 June 2023.

It is also recommended that the Half-Year Report be considered together with any public announcements by Breville Group Limited and its controlled entities during the half-year ended 31 December 2023 in accordance with the continuous disclosure obligations arising under the *Corporations Act 2001*.

Where necessary, comparatives have been reclassified and repositioned for consistency with current half-year and full-year disclosures. In the comparative period to 31 December 2022, other logistics costs are included within Other expenses (previously Premises and Utilities expenses) for consistency with half-year to 31 December 2023 and full-year to 30 June 2023 disclosures.

#### (i) Basis of accounting

The Half-Year Consolidated Financial Report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001* and *AASB 134 Interim Financial Reporting*. The Half-Year Financial Report has been prepared on a historical cost basis, except for derivative financial instruments and non-current other payables which have been measured at fair value.

The amounts contained in this report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. The Company is an entity to which this applies.

#### (ii) Significant accounting policies

The accounting policies adopted in the preparation of the Half-Year Consolidated Financial Statements are consistent with those followed in the preparation of the Group's Annual Consolidated Financial Statements for the year ended 30 June 2023.

#### (iii) Basis of consolidation

The Half-Year Consolidated Financial Statements comprise the financial statements of Breville Group Limited and its subsidiaries as at 31 December 2023 (the Group).

### (c) Seasonality of operations

The financial performance of the Group is exposed to seasonality in the volume of sales, such that the Company's financial performance is historically weighted in favour of the half-year to 31 December. This seasonality is a reflection of the additional retail sales generated during the holiday trading period each year. The seasonality in the volume of sales also generally results in a higher level of receivable and inventory balances at the half-year compared to year-end, usually resulting in a higher working capital requirement and lower operating cash flows at the half-year.

# Notes to the Half-Year Report continued

For the half-year ended 31 December 2023

## Note 1. Basis of preparation of Half-Year Report (continued)

### (d) New accounting standards and interpretations

### (i) Changes to accounting policy and disclosures

All accounting policies of the Group are consistent with those of the previous financial year. The Group adopted all other new and amended Australian Accounting Standards and Interpretations that became applicable during the current financial half-year. The adoption of other Standards and Interpretations did not have a significant impact on the Group's financial results or Statement of Financial Position.

## Note 2. Operating segments

The following tables present the revenue and gross profit information regarding operating segments for the half-year periods ended 31 December 2023 and 31 December 2022.

The Company's external reporting segments are 'Global Product' and 'Distribution'. The two segments reflect the two business models in the Company: (i) a global, innovation driven, product business, and (ii) a distribution business. For both business units, the geographic regions execute the sales, distribution and business development functions, supported by centralised functions including product development, marketing, operations, IT, finance and HR.

The 'Global Product' segment sells premium products designed and developed by the Group that are sold directly or through third parties, and may be branded Breville®, Sage®, Baratza®, LELIT® or other Group owned brands.

The 'Distribution' segment sells products that are designed and developed by a third party and are distributed pursuant to a license or distribution agreement or are sourced directly from manufacturers. Products in this business unit may be sold under a brand owned by the Group (e.g. Breville®, Kambrook®), or may be distributed under a third-party brand (e.g. Nespresso®).

### Note 6. Financial assets and liabilities

#### (a) Financial instruments

During the half-year, the Group designated certain forward exchange contracts as hedges of highly probable forecasted purchases of inventory, principally in USD. The forecast purchases are expected to occur between 0-12 months from 31 December 2023. The terms of the forward exchange contracts have been negotiated to match the terms of the forecasted transactions. Consequently, the hedges were assessed to be highly effective. As of 31 December 2023, an unrealised loss of \$8,852,000 (pcp: \$5,839,000) is included in other comprehensive income.

These forward exchange contracts are initially recognised in the Statement of Financial Position at fair value and subsequently remeasured to their fair value. Accordingly, there is no difference between the carrying value and the fair value of these derivative financial instruments at reporting date.

The carrying value and estimated net fair values of the borrowings held with banks is assumed to approximate their fair value, being the amount at which the liability could be settled in a current transaction between willing parties.

#### (b) Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 - quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2 - other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3 - techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data

#### (c) Valuation technique

The forward exchange contracts are measured based on observable spot exchange rates, the yield curves of the respective currencies, as well as the currency basis spreads between the respective currencies.

### Note 7. Property, plant and equipment

During the half-year ended 31 December 2023, the Group invested \$14,602,000 (pcp: \$8,110,000 and \$8,002,000 acquired with Lelit Srl) in manufacturing equipment, land and buildings, in-store fixtures, and an increase in tooling. Depreciation of \$6,998,000 was expensed during the half-year (pcp: \$4,832,000).

### Note 8. Intangible assets

During the half-year ended 31 December 2023, the Group capitalised development costs and software of \$16,768,000 (pcp: \$15,696,000) and recognised an amortisation expense of \$10,209,000 (pcp: \$7,345,000).

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
